

Syntar

Sterile Eye Drops

Composition : Dextran 70 +
Hypromellose (1mg+3mg)/ml.

Indications : This eye lubricant is formulated for relief of various ocular irritation syndromes (dry and irritated eyes) and for use as a protectant against further irritation. It may also be used to treat drying, inflammation of cornea and conjunctiva of eyes.

Dosage & administration : Instill 1-2 drops in the affected eye (s) as needed, or as directed by the registered physician.

Side effects : Possible adverse effect of hypromellose and other similar lubricants include eye pain, irritation, continued redness or vision changes. Use should be discontinued if the condition worsens or persists for more than 72 hours.

Contraindication : A documented contraindication of artificial tears is hypersensitivity.

Precautions : Use should be avoided if solution changes color or become cloudy.

Pregnancy and lactation : There is no adequate and well controlled studies in pregnant women. This product should only be used in pregnancy and lactation if it is considered essential by the physician.

Packing : 10ml in plastic dropper bottle.
